SUMMARY

Frontend Developer with over 2 years of experience building scalable web applications using React.js, Next.js, and TypeScript. Proficient in web development triecta, with expertise in modern frameworks and libraries. Skilled in creating responsive, mobile-first designs, optimizing web applications for speed and performance, and collaborating with cross-functional teams to deliver end-to-end solutions. Seeking to leverage my expertise in a dynamic role to deliver user-centric, high-performance web solutions.

SKILLS

Frontend: HTML, CSS, SCSS, Tailwind CSS, JavaScript, TypeScript, React.js, Next.js, Redux, Zustand, Framer Motion.

Backend: Express.js, REST API, CRUD, MongoDB, PostgreSQL, MySQL, Firebase.

Tools & Workflow: Git, GitHub, Jira.

EXPERIENCE

Frontend Developer

ContractSPAN Technologies Pvt. Ltd

June 2023 - Present, Hyderabad, Telangana

- **Led frontend development** of a Contract Lifecycle Management (CLM) and business intelligence platform, building the web app from scratch. Collaborated closely with the CTO and backend developers to ensure seamless feature implementation and frontend integration.
- Developed a custom field placement system for document editing, enabling precise signature mapping to PDF coordinates and enhancing accuracy without external libraries.
- Built a **dynamic & secure e-signature customization** module with tailored modals, offering users three signature methods to attach to documents including typed, uploaded, or hand-drawn directly on the site. This robust feature set provided users with full control over their signatures and initials, enhancing contract flexibility and accuracy.
- **Implemented advanced UI/UX enhancements**, for a multi-role management system, enabling org admins to onboard users, assign department-level access, and delegate permissions. Streamlined cross-department navigation for admins, enhancing data visibility and operational efficiency.
- **Optimized performance** by reducing **page load times** and implementing efficient state management using **Zustand**.
- **Integrated error handling mechanisms**, improving application stability and debugging techniques.

Frontend Developer Bootcamp

Digital Projekt

January 2022 - July 2022, Indore, India

- Developed **responsive web pages** and enhanced UI components using **React.js, Next.js, TailwindCSS**.
- Implemented SEO strategies and optimized site performance, improving **page rankings and load speeds**.

PROJECTS

Admin Dashboard

admin-dashboard-chirag.vercel.app/

- **Developed a comprehensive admin dashboard** to monitor **wallet balances, revenue, and user assets**, enhancing financial tracking.
- **Integrated data visualization** with bar charts and analytics for revenue and consumer behavior insights.
- **Implemented advanced filtering options**, enabling quick searches by **KYC status, zone, and account type**, improving efficiency.

Slack Clone

slack-clone-sooty.vercel.app/

- **Built a real-time chat application** inspired by Slack, featuring chat rooms and **Google OAuth authentication**.
- **Utilized Firebase for real-time data sync**, ensuring smooth **message delivery with near-zero latency**.
- **Enhanced UI with Material UI & Styled Components**, providing a sleek and responsive chat experience.

Markdown Editor

portle-editor-two.vercel.app/

- **Developed a powerful Markdown editor** with **DraftJS** for a seamless **rich text editing experience**.
- **Implemented local storage support**, allowing users to **save progress and resume editing without data loss**.
- **Optimized performance**, ensuring a **smooth editing experience even with large documents**.

EDUCATION

Bachelor of Science Computer Science

Minor in Computer Science • Shri Vaishnav Vidyapeeth Vishwavidyalaya • Indore, India • 2021 • 7 CGPA
